REMARKS

25X1X

On 23 June 1952, source observed that the edge of the former alternate airfield near Litten-Neupurschwitz was under cultivation. The landing field had a firm grass cover. No construction work was observed. There were off-limits signs around the field. Soldiers wearing red-bordered black epaulets apparently guarded the field. \*

\* ☐ Comment. The report clearly indicates that the field is still vacant and that no construction work has been in progress which might indicate an intended occupation by the Russians.
